MySTREET

2023

design_AL Studio

Le forme sono squadrate, le linee ortogonali disegnano geometrie pure e definiscono volumi con funzionalità diverse, lo spazio viene utilizzato al meglio grazie a proporzioni equilibrate, spessori sottili e altezze misurate. Le dimensioni disponibili e le combinazioni di configurazione rendono unico ogni lavabo. La pietra è la grande protagonista di questi monoliti, la forma di MyStreet nasce dalla conoscenza del materiale e dal lavoro dell'uomo per dargli una forma contemporanea. La collezione prende vita dalla serie di top già presentata da antoniolupi e proprio per questo oltre al bacino del lavaggio si predispone per contenere oggetti d'uso quotidiano che trovano posto in uno spazio dedicato e illuminato vicino alla parte. Il bacino del lavabo è capiente e può essere dotato di due pianetti laterali d'appoggio a sx o dx in perfetta continuità estetica e formale, seguendo le personali esigenze del cliente. Diverse le larghezze disponibili per il lavabo che assume così conformazioni più compatte o slanciate, combinazioni che si moltiplicano grazie alle possibili varianti. Nella sua lunghezza massima MyStreet può ospitare anche due miscelatori contemporaneamente con i relativi pianetti da appoggio. Un lavabo che sembra scavato nella roccia e porta con sé le tracce uniche di una storia, le sfumature, le leggere variazioni cromatiche, una serie aperta che permette di soddisfare le esigenze di ciascuno e di rendere unica e personalizzata l'area lavaggio.

Shapes are square, perpendicular lines draw pure geometries and define volumes with different functionalities, and space is best utilized through balanced proportions, subtle thicknesses, and measured heights. The available sizes and configuration combinations make each sink unique. Stone is the great protagonist of these monoliths, the shape of MyStreet comes from the knowledge of the material and man's work to give it a contemporary shape. The collection comes to life from the series of tops already presented by antoniolupi, and because of this, in addition to the sink, it is arranged to hold everyday objects that find a place in a dedicated and illuminated space near the side. The basin of the sink is large and can be equipped with two side shelves for support on the left or right in perfect aesthetic and formal continuity, following the personal needs of the customer. Many widths are available for the sink, which thus takes on more compact or slender conformations, combinations that are multiplied by the possible variations. In its maximum length, MyStreet can also accommodate two mixers at the same time with their corresponding counter tops. A sink that seems to be carved out of the rock and carries with it the unique traces of history, the nuances, the slight color variations, an open series that allows to meet everyone's needs and to make the washing area unique and personalized.
